• Building w/ interactive windows

- Simple-ish
- interesting

issue with positioning of vertical building rectangles

~~xoffset~~ = var x 10 Doesn't work

~~xoffset~~ = var x 20 Doesn't work

XOffset = var x 40 Successful

Same issue successfully avoided with horizontal building rectangles ~~Done!~~

Can't remember code for when mouse is in specific area. will ask

Rach in class if friends don't know:

☹️

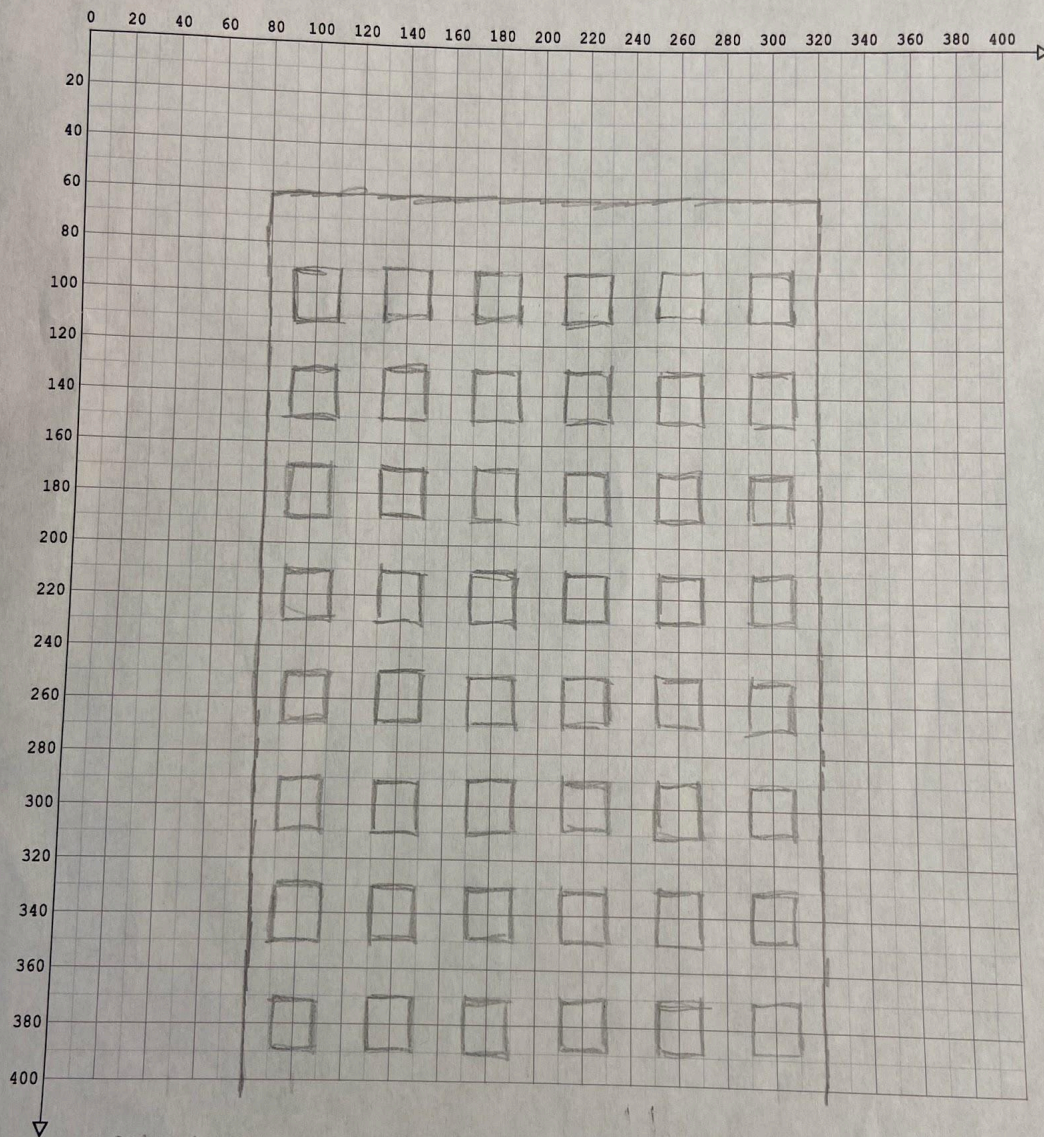

~~Fixed!!!~~ ★ some issues ran into lighting up windows - won't stay lit ✓

Issue with repetition

- function used 48 times

↳ not issue but code would

still be cleaner without
Want to fix
